## WBFH MEMBERS - ANNUAL REPORTS 2024

(Statistics up until 2023)

WBFH MEMBERS - ANNUAL REPORTS 2024	UELN	Member status	Member since	Code	New developments in 2023
Association Nationale Anglo-Arabe / Stud Book Français du Cheval Anglo-Arabe (ANAA)	250001	FULL	1994	AA	Anglo-arab mares labelling
ACE Studbook - Australian Continental Equestrian Group Inc (ACE)	36013	FULL	2015	ACE	The ACE Breeding and Inspection Tour was a huge success in 2023 with a large number of foals, mares and stallions being classified.
Asociación Española de Criadores de Caballos Anglo-árabes (AECCAá)	724017	FULL	2019	AECCAá	We keep working in the selection of our breed, providing our breeders with high quality formation courses in order to transmit the importance of an objective and careful selection, based in the principle that high quality and tested mares are the basic tool to achieve our objectives of getting a top quality sport breed.
American Trakehner Association (ATA)	840007	FULL	2019	ATA	In addition to including a lifetime USEF (United States Equestrian Federation) number with our registrations, we were now able to offer the option of adding a Lifetime USEA (United States Eventing Association) for a small fee.
Australian Warmblood Horse Association Ltd (AWHA)	36001	FULL		AWHA	Will launch online membership, registrations, etc in 2024, which will enable reports to be generated for better collection of data.
Breeders Elite Studbook for Irish & European Sports Horses (BE/SIES)	826088	FULL	2016	BE/SIES	In 2023 we added an online database to our website, enabling all information to be accessed to the general public.
Baltic Horse Breeders Association (BHBA)	440006	FULL	2023	BWB	We became candidates for WBFH
Croatian Association of Breeders of Sport Horses / Hrvatska Udruga Uzgajivaca Sportskih Konja (HUUSK)	191004	FULL		CABSH	New breeding program
Criadores de Caballos Deportivos Mexicanos, A.C. (CCDM)	484001	FULL	2005	CCDM	Breeding policy: best bloodlines in records
Czech Warmblood Breeders Association / Svaz chovatelů českéhoteplorevniků (SCHČT)	203009	FULL	2015	CZEWB	Evaluation of the linear scoring of the foals and comparing the whole population with progeny of particular sires
Estonian Sport Horse Breeders Society / Eesti Sporthobuste Kasvatatjate Selts (ESHB)	233001	FULL	2010 (F) 2005 (A)	ESH	Stallion selection event from 1 day to 2 days
The Finnish Horse Breeding Association / Suomen Hippos ry (FWB)	246001	FULL		FWB	In 2023 there was minor changes in stallion selection procedure.
Irish Sport Horse (ISH)	372414	FULL	1995	ISH	First year of foals genotyped on SNP, tendered for an e-passporting system
Koninklijk Friesch Paarden-Stamboek (KFPS)	528004	FULL	2020	KFPS	Start of the four year breeding research conservation of the Friesian horse.
Koninklijk Warmbloed Paarden Stamboek Nederland / Royal Warmblood Studbook of the Netherlands (KWPN)	528003	FULL	1994	KWPN	Committee for improvement of estimation of breeding values
KWPN of North America, Inc. (KWPNA)	84002 (USA) 124007 (CAN)	FULL	2013	KWPN NA	We no longer require one judge to be present during the entire keuring tour. We now have two separate judging teams that come for our keuring tour, plus a third team to judge the Harness breeding direction. We have set up a new Code of Conduct, which not only applies to the members and their behavior but to animal welfare as well. We have a grievance committee that reviews any reports of misbehavior of our members.
Latvian Horse Breeders Association aka Latvian Warmblood Studbook (LWB)	428001	FULL	2008	LWB	LWB for first time organised LWB foal show.
Italian Sport Horse Studbook / Ministero dell'Agricoltura della Sovranità Alimentare e delle Foreste (MASAF)	380007	FULL	2001	MASAF	Change of ownership and declarations of foaling only online (no more by PEC and/or by post)

## WBF SH MEMBERS - ANNUAL REPORTS 2024

(Statistics up until 2023)

<b>North American Studbook (NAS)</b>	840047	FULL	2020 (F) / 2012 (A)	NAS	Passports approved by FEI
<b>Norwegian Warmblood Association / Norsk Varmblod (NWB)</b>	578011	FULL	1998	NWB	Studbook registry changed, more open for other breeds. New system for registration (Equis/ Delta Horse from 2023) Some changes in inspections
<b>New Zealand Hanoverian Society (NZHS)</b>	554007	FULL	2018	NZHS	There is an overall downturn in mares foals and members
<b>New Zealand Warmblood Association (NZWA)</b>	554009	FULL	2018	NZWB	Matthias Werner was welcomed back in early 2024 to inspect the 2023 crop of foals along with stallions and mares. He was impressed with how the studbook is developing
<b>Verband der Züchter des Oldenburger Pferdes e.V. (OLDBG)</b>	276433	FULL	1994	OLDBG	Genetic breeding values for size (based on genomic data)
<b>Springpferdezuchtverband Oldenburg- International e.V. (OS)</b>	276418	FULL	2001	OS	Genetic values of horse size are available for breeders (based on genomic data)
<b>Asociación Nacional De Criadores De Caballos de Pura Raza Española - National Purebred Spanish Breeders' Association of Spain (ANCCE)</b>	724015	FULL		PRE	<p>In 2023, The ANCCE registered 13,402 new PRE Horses in the Birth Register of the PRE-Studbook (6,553 males and 6,849 females). Thus, the breed census as of December 31, 2023, was 282,066 horses (139,273 males and 142,793 females), belonging to 48,365 active stud farms in 67 countries, which represents a 6,3% increase of horses with respect to the previous year. Of the newly incorporated PRE breeders registered, 43% are from outside Spain - mostly in the USA, Italy and Germany. The other 57% of the stud farms are in Spain. In terms of the other services offered by the PRE-Stud Book office, there have been 5,538 assessments as Basic Breeding Stock and 9,617 changes of ownership. Of these ownership modifications, most were in the United States, Mexico, Italy and Germany. It is noteworthy that authorized veterinarians took 24 trips abroad for Basic Breeding Stock evaluation, including but not limited to the United States, Mexico, Costa Rica, Ecuador, Panama, Sweden, Norway, Brazil, the Dominican Republic, among others. This fact shows that the promotional efforts in recent years to make Purebred Spanish Horses known over the world are paying off. The quality of LG PRE ANCCE services is certified by UNE-EN ISO 9001:2015 standards. Year after year, the indexes for quality, efficiency and reliability increase. This has earned the Stud Book office international recognition, thus making it a reference for other equine breeds, especially in Europe. The ANCCE Molecular Genetics Laboratory has the latest in equipment and performs genetic parentage analyses on all PRE horses seeking registration, wherever they are in the world. This laboratory is one of the few in Spain that has Quality Certification based on UNE-EN ISO 9001:2015 Standards, and with ENAC accreditation based on UNE-EN ISO/IEC 17025:2017 standards for "Genetic profile identification, identity and parentage verification using microsatellite analysis (Short tandem repeats or STRs) and AME marker by means of PCR and capillary electrophoresis" for equines. It is noteworthy that this is the first and only laboratory in Spain that is certified to "analyze the genetic markers involved in equine coat colors." This ENAC-backed certification places the ANCCE analytical laboratory at the forefront of the business to guarantee that all services meet the highest standards. Not only does this endorse the excellence of the work carried out. It also results in greater efficiency and improved services for Purebred Spanish Horse (PRE) breeders the world over, in addition to other breeds and species. Moreover, the ANCCE laboratory is authorized by the Andalusian Regional Government and Spain's Ministry of Agriculture, Fisheries and Food, with certification from by the International Society for Animal Genetics (ISAG). This body places the ANCCE laboratory in Ranking 1 for accuracy, with 100% of the samples coinciding in the external quality control tests carried out. From the standpoint of genetic selection, the LG PRE ANCCE Stud Book published the genetic values and indexes for all horses that were genetically assessed throughout 2023. Data was obtained at the registered performance tests (15,700 horses assessed for Dressage while 163,653 horses were assessed for Conformation using the Lineal Conformation Score). In terms of conformation aptitudes for Dressage, the genetic values for 37 different conformation traits and the Global Genetic Index (GGI) were also issued. In the case of Dressage, the genetic values for six (6) variables and the GGI for each horse were also published. The 115 horses earning any one of the genetic categories included in the PRE-Breeding Program are published in the 2023 PRE-Breeding Stock Catalog: 71 horses earned the category as Young Recommended Breeding Stock, 24 horses were considered Improver Breeding Stock, while 20 horses earned the category as Elite Breeding Stock. ANCCE is currently involved in a genomic project that will facilitate an increase in the speed and magnitude of the genetic progress in PRE Horses. It also leads to the early detection and verification of inherited traits that entail considerable economic costs. This, in turn, facilitates matings that avoid future problems and economic losses, while providing breeders with economic benefits. Likewise, ANCCE will also implement a digital tool for breeders to integrate all this easy-to-use information when anticipating selection or performance problems. This tool will allow them to make rational breeding decisions based on reliable data to avoid losses, reinforce resources, and attain faster and more efficient genetic progress to establish quality PRE standards on national and international markets.</p>

## WBFSH MEMBERS - ANNUAL REPORTS 2024

(Statistics up until 2023)

<b>Portuguese Sport Horse Studbook / Associação Portuguesa de Criadores de Racas Selectas (APCRS)</b>	620001	FULL	2002	PSH	Implementation of breeding improvement programs for both the PSH and LW studbooks.
<b>Studbook for Polish Malopolska Horses - Polish Horse Breeders Association (PZHK M)</b>	616009	FULL	2008	PZHK	From the 6th of January 2023 there is change in entity maintaing equidae data base. From that date public authority (Agency for Restructuring and Modernisation of Agriculture) maintain database also for horses in Animal Identification and Registration System - they registrate horses, horses holders, locations and movements of those animals and pass the data to PZHK to do further activities such issuing identification document, etc. Other breeding procedures stays the same. Since April 2023, we changed minimal age of stallions approval - for young stallions, qualified temporarily for mating - from 27 to 30 month old and for older stallions for life long approval - from 36 to 39 months old, to assure their better animal welfare.
<b>New Zealand Rhinelander in the New Zealand Hanoverian Society (RHEIN-NZ)</b>		FULL	2018	RHEIN-NZ	As per NZHS report - there is a significant downturn due to the current harsh economic conditions
<b>South African Warmblood Horse Society (SAWHS)</b>	710001	FULL	2000	SAWHS	We as a society are re-evaluating our processes and procedures to update our studbook and market to the breeding industry in a more relevant way.
